

DON'T DREAM ... ACT!

Helping businesses and professionals **ACT** so they can achieve their full potential.

Comprehensive Project Management Workshop with PMP Prep

Objectives

- Improve the cost, quality, scheduling, resource, and scope requirements of your projects while anticipating risk and ensuring customer satisfaction
- Apply valuable knowledge, concepts, tools and techniques to pass PMP/CAPM exams

Target Audience

Individuals with business analysis, consulting, or project management experience in a variety of industries and those wanting to get certified in project management.

Foundation for course material: The Project Management Institute's (PMI) A Guide to the Project Management Body of Knowledge (PMBOK) Fourth Edition

Agenda: Accelerated, interactive learning with practical application

- Project Management overview
- Integration management
- Scope management
- Time management
- Cost management
- Quality management
- Human resource management
- Communication management
- Risk management
- Procurement management
- Professional responsibility
- Review and take practice exams

Testimonial

“Having over 10 years of direct project management experience (including consulting from the Big “6”), I was not expecting to learn very much. I am pleasantly surprised to learn many new tools and techniques, that are making my project management skill set more effective. In addition, you have provided invaluable insight as to the PMBOK interpretation of the calculations and questions. Finally, your ability to clearly explain the overall framework and how the knowledge areas integrate was extremely helpful in connecting the dots.”
- Dish Network participant
